## Our host project partners

### > Springfield School, Liverpool

Springfield School specialises in meeting the needs of **children and young people up to age 19 who have physical disabilities, a significant number of whom have profound and multiple learning difficulties**. Volunteers work with and supervise individuals and groups of children to support teachers, and provide assistance to those with physical and social needs. The school is very well resourced; with play areas, Information Technology provisions, a sensory stimulation environment and a specially modified vehicle for use on school outings. Volunteers help with these and other activities, and will be expected to take an active role in the life of the school.

This placement requires a flexible volunteer with varied interests and abilities, who will need excellent social skills and emotional awareness.
